CS3243 Introduction to Artificial Intelligence

Assignment Submission Guidelines

Important Instructions

- Weekly assignments comprise of selected questions from the corresponding weekly tutorial, starting from Week 3's Tutorial.

- Assignments are to be done (typed) and submitted individually online by the due date specified.

File Naming Convention

Your assignment submission should consist of either ONE (1) Microsoft Word `.docx` file or ONE (1) PDF `.pdf` file (if you prefer to use LaTeX).

Please use the following naming convention:
`TutX_StudentNumber.docx` or `TutX_StudentNumber.pdf`

(e.g. `Tut1_A0123456G.docx`)

where

- `X` is the tutorial document number (NOT your tutorial group number).

- `StudentNumber` is your student number beginning with `A`.

File Formatting

Clearly state the following details at the top of the document in your submission.

- Tut`X` Assignment, where `X` is the tutorial document number.

- Student number, name, and tutorial **group** number (T01, T02, T03, T04, T05, etc.)

Submission

Tutorial X (Week Y) should be submitted on Week Y-1 Sunday 2359hrs.

- As Tutorial 5 (Week 7) is mid-term review, there will be no Assignment 5.

Navigate to `LumiNUS > CS3243 > Files > Assignment Submission`, and upload your assignment to the respective folder. Submit to your tutorial group folder. Do not submit multiple files.

Strictly no late submissions are allowed.

Retrieving Marked Work

Approach your TA for feedback regarding the marked work. The assignment questions, together with the other tutorial questions, will be discussed during tutorial sessions.
